

### Why Colloidal Oatmeal?

In June 2003, colloidal oatmeal has gained the U.S. Food and Drug Administration (FDA) approval to be used as a skin protectant.<sup>1</sup>

Colloidal Oatmeal is listed as a common ingredient name for use in the labelling of cosmetic products in Commission Decision (EU) 2019/701 of 5 April 2019.<sup>2</sup>

Colloidal Oatmeal Raw Material has been classed by the FDA and Health Canada as a 'skin protectant' and 'natural health product (NHP)'.<sup>4</sup>

Japan Cosmetic Industry Association (JCIA) - Stated colloidal oatmeal as one of the cosmetic ingredients available in Japan that should be used to comply with the provisions of the PMDL (Pharmaceutical and Medical Devices Law).<sup>5</sup>
