## Sartolab<sup>®</sup> RF and BT

### Save up to 30% on Sartolab<sup>®</sup> Vacuum Filters and Complete Units

Sartolab<sup>®</sup> RF vacuum filtration units are convenient filtration units designed for research purposes. For the filtration of small volumes from 50 mL to 1 L. Sartolab<sup>®</sup> RF is a complete system that includes a filtration funnel and receiver flask.

Sartolab<sup>®</sup> RF was designed to be a stand alone unit or used in conjunction with the Sartolab<sup>®</sup> Multistation. A stand uniquely designed to hold one to six vacuum filtration units, allowing simultaneous filtration of up to six samples. Easily install your vacuum filtration units in the Multistation for quick and easy filtration without the need for extra connectors and time-consuming stabilization.

Sartolab<sup>®</sup> BT bottle top filters - gasket design ensures a vacuum-tight seal with a choice of receiver bottles.
